NIGHT CLASSES ARE LARGEST IN SEVEN YEARS

Enrolment Already Exceeds
Past Records and Will Be
Further Enlarged

The opening student assembly of the Y. M. C. A. night school was attended by about 80 of the students taking work at the Y. M. C. A. night classes, who listened to Executive Secretary Larimer talk on "Your Y. M. C. A." The enrolment of the night school is the largest of the seven years the Honolulu association has been conducting night classes for young men and boys. More than 140 have enrolled in the different classes. This year there is a larger number of students who are taking more than one class, which brings up the average of the night work.

Although most of the classes held their first session this week, opportunity will be given to enroll in some of the classes next week. Owing to the emphasis placed on individual instruction this makes enrolment in the classes possible during next week. The complete commercial course, drafting, machine shop course, algebra, geometry and trigonometry, type-writing and advanced English courses are still open to enrolment.

The employed boys' school, which is open to the working boys of the city, giving work in the fifth, sixth, seventh and eighth grades, will begin Tuesday night. The employed boys' supper Monday night, when the boys will form into club organizations for athletics, socials and gymnasium work, is being well organized and a large number of boys will be on hand for the first of the "bean feeds" under the boys' department. This will also give the boys an opportunity to enroll in their night classes, which begin the following night.

**Hopes Women Will
Adopt This Habit
As Well As Men**

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practise internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.—Adv.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder.—adv.

FINDS JAPANESE PEPPERS WARMER THAN HOME ONES

Hot stuff for Hawaii is the plan of A. T. Longley of the Territorial Marketing Division, who is screwing up enough courage this week to taste some sample red peppers from Japan to learn whether they are considerably hotter than the Hawaiian product.

Reluctant to place one of the harmless looking seeds from the pretty carmine husks upon his tongue, he tried to induce a Star-Bulletin reporter to take a chance, but the latter declined with thanks on the excuse that it was plenty hot enough for him outside.

Longley says that the Japanese exported 45 tons of peppers last year at an average rate of 27 cents a pound, so he has been told, in comparison with no exportation by Hawaii and with peppers grown here selling for about 3 cents a pound.

"There would be a good field for the pepper industry here, as well as for many other products," he says, "and if the Japanese peppers grew as prolifically as the Hawaiian peppers the supply here would be unlimited. They are much hotter than the local product and I am obtaining some seed to use for experiments."

SMIDDY INFORMED AS TO DEDUCTIONS ON SALARIES

Cable instructions have been received by Marshal J. J. Smiddy from Washington informing him that no deductions are to be made from the salaries of judges in the supreme and inferior courts for such judges as were in office on September 8 of this year. For judges appointed after this date, withholding is to be made at the rate of 1 per cent until January 1, 1917. After January 1, deduction is to be made at the rate of 2 per cent. This is on a decision regarding the income tax dated September 21.

JAPANESE Y. W. C. A. TO ASSIST IN HELPING ALL YOUNG GIRLS TRAVELING

Members of the Japanese Y. W. C. A. are taking a deep interest in the welfare work for girls coming from Japan to the United States. Miss M. Kawai, national secretary of the Y. W. C. A. for Japan, has recently returned from an extended stay in the United States and says that both nations are

cooperating in this work. "The Y. W. C. A. tries to improve conditions of the young women who come from distances in Japan, far away from the travel of tourists. They live a different life there, and Americans oftentimes are dissatisfied with the mannerisms of these people. It is entirely a case of education."

NATIONS HERE DO HONOR TO PORTUGAL'S REPUBLIC

Many nations did honor to Portugal Thursday in Honolulu, by flying their flags in celebration of the sixth anniversary of the Republic of Portugal. Many prominent officials tendered their respects to Sr. Agnelo da Cunha Costa Pessoa, the Portuguese consul-general, and A. Patria Society was "at home" during the day and night at 116 South Beretania street.
